Office Memorandum • UNITED STATES GOVERNMENT

TO : The Files

DATE: 5 June 1956

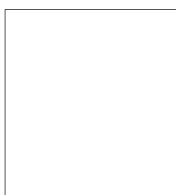

50X1

FROM :

50X1

SUBJECT: IS-1 Infrared Set Status

1. TSS has delivered a total of 12 production prototypes of the IS-1 long range infrared communications set to the Office of Communications. As requisitions are received from the field, the IS-1 units are modified by the Laboratory as IS-1A sets. The current distribution of IS-1A sets is as follows:

6

50X1

2

2

This leaves a balance of two (2) sets in the Laboratory inventory.

2. TSS has advised that they will transfer four (4) additional sets to us within two weeks (after a five-mile check has been accomplished by TSS). This means that we will receive a total of 16 of the 20 manufactured as production prototypes.

3. The above does not include an engineering model of the IS-1 and one IS-4, which were shipped to earlier, nor one modified IS-1 engineering model, which has been returned to the contractor for repair.
